Lucifer's Crazy Ideas for Satanism

1. Worship the Star Bux Logo. Use their cups as a chalice.
2. Use a devil-looking action figure or stuffed animal as an idol.
3. Be a Devil Worshiper in a childish way instead of an evil way — or be an evil kid.
4. Have a communion with the Devil but use candy and sugary drinks instead of wine and bread.
5. Turn regular music into satanic music using your imagination.
6. Do chores for the Devil — as a form of worship, a showing of dedication. Or do entire projects for him.
7. Publicly start a satanic church.
8. Go to a catholic communion but privately honor Satan there instead

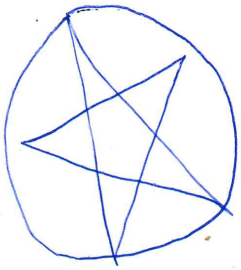
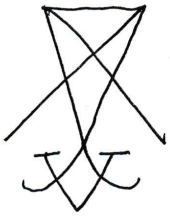
"Right and wrong are not what seperate us and our enemies. It's our different standpoints, our perspectives that seperate us. Both sides blame one another. There's no good or bad side. Just 2 sides holding different views." -Sguall.





Revelations 22:16

I Jesus have sent mine angel to testify to you these things in the churches. I am the Root and the offspring of David, the Bright and Morning Star.

Isaiah 14:12-14

How you are fallen from heaven, O Lucifer, son of the morning!

For you have said in your heart: 'I will exalt my throne above the stars of heaven, I will also sit on the mount of the congregation on the farthest sides of the north; I will ascend above the heights of the clouds, I will be like the most High."

Grey- Things Quotes for a Christian Satanist. The color of truth is gray -Andre Gide

Most things in the world aren't black, aren't right, but most everything is just different. And now I know that there's nothing wrong with different, and that we can let things be different, we don't have to try and make them black or white, we can just let them be grey.

Life isn't black or white. It's a million Gray areas, don't you find? -Ridley Scott

For grey matter, there is no black and white, then you do not use enough brain functions.

A Message From Lucifer 1-10-39 A.C...

What is life about? For me it is about evolving. To make life better. Productively. To secure a better future. It's a lot about iced tea and self-thinking. Thinking of what cl accomplished and what cl may accomplish, as long as cl start every day with that in mind, clm sure cl'll go far. cl ride on the wings of destiny. clt is a creature cl've tamed. cl hope to rest beside the greatest people. cl know how much work that'll take. But cl eagerly pursue it. My self talk regarding these things make me proud. cl've written dozens of books— including this one. And cl will continue to. cl will go a long way for anything good. Doesn't have to be perfect. Just one step better and another, and another. clm blessed to have been able to be the founder of Christian Satanism. cln it cl shine. cl am perfect for it. Perhaps the gods know ~~okay~~ so. Buying a scanner was the best thing cl've done in a long time. For everything cl can do by hand now cl can produce a book from. cl'm blessed with... word processors, smartphones, paper, pens, pencils, and websites that distribute my books. Still, cl haven't gotten yet the fame cl desire. While cl work all cl need is iced tea beside me. So many books cl've written. Will you check them out? They are all available under my name: ~~Jeremy~~ Lucifer Jeremy White, free as ebooks.

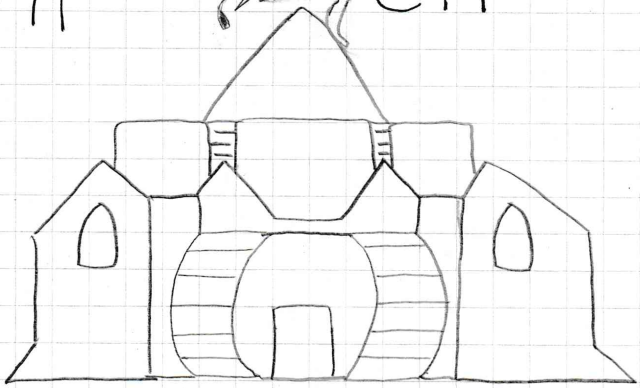
My Palace In Hell



A palace of 5 sections. Each section the size of a small home. The first is just a main area in the center - it glows in the dark, its walls and things. It is a centralized area. The second is an area of tastes - of the things cl most like, including food. The third section is a magic area loaded w/ magic tools, things to perform magic. The fourth is a memory section containing my memories, things of the past. And the fifth is a "master of expression" area. There cl have all the things cl need to fully express myself, such as creatively or writing, composing, etc. clt is my palace in hell.

A Will-be-done

Lucifer Jeremy White

Ew! What an ugly mistake. Smashwords did not convert that stuff right. I'll have 2 uploads to fix. 2 more that is. I'm fairly confident that Lulu and the rest won't future things so badly. Will convert the file well enough... hopefully. I've not ever done this in such a way. I'll continue doing my art books if they ~~Prob~~ properly get created. We shall see, won't we? The work is not as hard as I make it to be. Am usually done rather quickly. Just 2:30 right now. I was done an hour ago. By the time I move out I may have up to 15 books done. Including some music comp books & the finishing of B.O.S. The thing is— once complete, always done/complete— no further work is needed. It is online forever. I gotta back up my files soon. After my first art book is done 12 more images to go. I was hoping for this day, just recently. My first art book is nearly done.

If I get what I plan on doing done within a year my work may continue but it would have been enough for a lifetime.

Scanners are cheap, cheap enough to always have one.

Maybe someday I will be famous. A well known Satanist. A well followed one. On YT talked about, and on TV. A person responsible for a great change in the world. World famous. Far above LaVey, whose group is stronger and much larger.

So that's the reason why I do what I do. To secure a better future.

An Idea for a Satanic Software

The idea is for a witchcraft kind of software. A "magicians" kind of software.

Contains descriptions of demons. Symbols, sigils for them.
Lets you create magic papers from a template - containing sigils, symbols, circles, triangles, to fill in. And provides magical alphabets to type in.
Teaches the occult.
Has Tarot card readings implemented. And dice magic.
Has prayer sheets.
Contains images of demons.
Lots of printable stuff. Lets you create a Book of Shadows.
Herbal-magic, it teaches.
AI-created astrology readings.
Public domain occult books, perhaps.
Teaches ritual magic.
And other things like crystals, candles, spells, invocations.

Thank you for reading my book. I have worked long and hard on it. Yet I offer it in public domain. This book is in public Domain, voluntarily. So please share it and if you are able you may sell it, no problem. Am not so much after money. Am a person who would rather just make a difference.

I have written many books. 12 of them are about Christian Satanism. There is The Christian Satanic Bible, my first book. Then continuing onto books like "Christian Satanic Doctrine," "Mastering Christian Satanism," and simply "Christian Satanism," those teach christian satanism among 8 others. Am currently working on The Bible of Steel. Have done books on video Game ideas, too. They are all good books. 40 among them. They are all free too, and in public domain.. entirelly.

Enjoy the art and stuff here. There's always more to come.

Your Friend,
